"We are an innovative company – but we're also one big family."

Harry Bauermeister,
Managing Director

The Dallmer family business is now in its fourth generation. And even if over the decades times have changed drastically, and along with it the production processes, one thing has remained the same: All Dallmer products are developed, designed and manufactured using state-of-the-art technology in Germany – more specifically, in Arnsberg. The "Made in Germany" seal of quality applies without reservations.

Investing in the future. Dallmer does not only invest money in state-of-the-art machine technology, but also in training and further education for its employees. This ensures that there is specialist know-how at the location.

Bringing together strengths. In order to produce drainage solutions which set standards, you need a genuine innovative spirit and a high degree of experience – and state-of-the-art technology.

Every detail counts. Quality is our top priority. If we all work towards this same goal, we are capable of meeting even the highest demands.

CeraFrame Liquid
shower channel

CeraFrame Liquid: Seamless design, maximum creative freedom

The new solution for the
seamless bathroom

A minimalist design stands out for its certain uncompromising aesthetic quality. If you dispense with a large number of aspects, functions have to be integrated in the most intelligent manner in order to avoid disrupting the overall clean impression of puristic bathroom design.

More and more bathroom owners are requesting surfaces which are as close to seamless as possible in the shower area. That's why large-format tiles are frequently laid or thin coverings are applied. With CeraFrame Liquid, Dallmer has developed a shower channel that is specifically tailored to the requirements of seamless thin-layer filler systems. CeraFrame Liquid takes its place alongside the other members of the Dallmer DallFlex shower channel family.

The highest level of
processing reliability

The solid construction type, the fully closed channel contour and the watertight connection to the DallFlex drain body reliably prevent moisture from penetrating underneath the covering. The click-in sealing sleeve of the DallFlex drain body provides optimum water-proofing as per DIN 18534. Reliability at a new level, rounded off by impressive cleaning and maintenance properties.

Discover the DallFlex system:
dallmer.com/dallflex

What else might interest you: The Floor drains DallDrain. Installation technicians are provided with an assembly-friendly, highly flexible floor drain for drainage of all sealed surfaces, for example in the bathroom, spa and cellar.

CeraFrame Liquid

The new form of seamless aesthetics
makes functionality invisible.

Material	Stainless steel
Suitable for drain bodies	DallFlex / DallFlex Plan / DallFlex vertical / CeraFlex / CeraFlex Plan / CeraFlex vertical
Build height	4.5 mm including waterproofing
Dimensions	270 × 47 mm
Suitable floor coverings	Spatula-applied seamless thin-layer floor coverings from selected manufacturers

- ① CeraFrame Liquid cover plate
- ② CeraFrame Liquid shower channel
- ③ Available for delivery in vertical version

Advantages

CeraFrame Liquid is a new type of drainage system. The solid construction type, the fully closed channel contour and the watertight connection to the DallFlex drain body guarantee maximum safety for thin-layer floor coverings, and prevent the moisture from penetrating underneath the covering.

- Specifically developed for thin-layered, seamless filler systems
- Integrates ideally into the shower area as the cover plate is also filled with the thin-layer floor covering
- No more high layer thicknesses with long drying times thanks to the lower installation height
- Solid construction
- Two-level troweling aid
- 100 % watertight connection to the DallFlex drain body, as per DIN 18534

Plan (horizontal outlet)

Vertical outlet

Build-in height	45 mm (vertical), 65 mm Plan (horizontal outlet), 90 mm
Flow rates	0.5 – 1.0 l/s*
Convenience	Easy-to-remove trap insert for quick cleaning; easy access to wastewater pipe

*Depending on the drain version and connection type.

Advantages

- Installation in the screed, can be freely positioned against the wall or in the floor depending on preference
- Universal body with removable trap and click-in sealing sleeve
- For installation with all shower channels
- Dallmer fire and sound-insulating collar 11, suitable for CeraFlex and DallFlex vertical drain bodies
- Can be connected to British standard pipework with Dallmer coupling

Shower channel CeraFrame Liquid

DALLMER shower channel CeraFrame Liquid

for installation with drain body DallFlex, DallFlex Plan, CeraFlex and CeraFlex Plan in trowelled jointless thin-layer floor coatings of selected manufacturers.
Suitable for coatings with total construction height of 4.5 mm incl. waterproofing.

SPECIFICATION

- coatable cover plate 255 x 32 mm
- two-level troweling aid
- temporary blanking plate

MATERIAL

304 stainless steel, 300 x 91 mm, 8 mm solid, frame 270 x 47 mm, load class K 3 (300 kg)

ITEM	DIMENSION	PART NO.
shower channel CeraFrame Liquid	270 x 47 mm	537393

DALLMER shower channel CeraFrame Liquid vertical

for installation with drain body DallFlex vertical and CeraFlex vertical in trowelled jointless thin-layer floor coatings of selected manufacturers.
Suitable for coatings with total construction height of 4.5 mm incl. waterproofing.

SPECIFICATION

- coatable cover plate 255 x 32 mm
- two-level troweling aid
- temporary blanking plate

MATERIAL

304 stainless steel, 300 x 91 mm, 8 mm solid, frame 270 x 47 mm, load class K 3 (300 kg)

ITEM	DIMENSION	PART NO.
shower channel CeraFrame Liquid vertical	270 x 47 mm	537409

Ordering CeraFrame Liquid:

Please order drain body DallFlex or CeraFlex + shower channel CeraFrame Liquid as two components!

Ordering CeraFrame Liquid vertical:

Please order drain body DallFlex vertical or CeraFlex vertical + shower channel CeraFrame Liquid vertical as two components!

Note:

The thin-layer trowel system must be suitable and tested for use on waterproofing according to DIN 18534 in level access showers. The manufacturer's instructions must be followed during the application.

Drain body DallFlex

DALLMER drain body DallFlex

conforming to DIN EN 1253

for installation with shower channels CeraWall, CeraFloor, CeraFrame, Zentrix, CeraNiveau and CeraFrame Liquid. Outlet DN 50 or BS 2" horizontal, can be positioned on three sides without tools, with ball-joint, adjustable 0 – 15 degrees

SPECIFICATION

- integrated anchors for extra grip in the screed
- flexible sealing collar for secure bonding of under-tile waterproofing (conforming to DIN 18534)
- accessories for sound insulated installation
- sound absorbing mounting feet for fixing and height adjustment 90 - 250 mm
- removable trap insert, 50 mm water seal (conforming to DIN EN 1253)
- temporary blanking plate

MATERIAL

Polypropylene drain body and outlet, highly impact-resistant

FLOW RATE TESTED TO DIN EN 1253

(with 10/20 mm water over cover plate)

	Required	Dallmer
DN 50	0.8 l/s	0.74/0.8 l/s

ITEM	PART NO. DN 50	PART NO. BS 2"
drain body DallFlex	539007	540478

Build-in height 90 mm

drain body DallFlex

Drain body DallFlex

DALLMER drain body DallFlex Plan

for installation with shower channels CeraWall, CeraFloor, CeraFrame, Zentrix, CeraNiveau and CeraFrame Liquid. Outlet DN 40 horizontal, can be positioned on three sides without tools, with ball-joint, adjustable 0 – 15 degrees

SPECIFICATION

- integrated anchors for extra grip in the screed
- flexible sealing collar for secure bonding of under-tile waterproofing (conforming to DIN 18534)
- accessories for sound insulated installation
- sound absorbing mounting feet for fixing and height adjustment 65 - 250 mm
- removable trap insert, 30 mm water seal (deviating to DIN EN 1253)
- temporary blanking plate

MATERIAL

Polypropylene drain body and outlet, highly impact-resistant

FLOW RATE FOLLOWING DIN EN 1253 TAB. 3,
(with 10/20 mm water over cover plate)

	Required	Dallmer
DN 40	0.4 l/s	0.48/0.5 l/s

ITEM	DN	PART NO.
drain body DallFlex Plan	DN 40	539014

Can be connected to British standard pipework with adaptor part No. 880734.

Build-in height 65 mm

drain body DallFlex Plan

Drain body DallFlex

DALLMER drain body DallFlex vertical

conforming to DIN EN 1253

for installation with shower channels CeraWall, CeraFloor, CeraFrame, Zentrix, CeraNiveau and CeraFrame Liquid vertical. Outlet DN 50 vertical

SPECIFICATION

- integrated anchors for extra grip in the screed
- flexible sealing collar for secure bonding of under-tile waterproofing (conforming to DIN 18534)
- accessories for sound insulated installation
- sound absorbing mounting feet for fixing and height adjustment 45 - 250 mm
- removable trap insert, 50 mm water seal (conforming to DIN EN 1253)
- temporary blanking plate

MATERIAL

Polypropylene drain body and outlet, highly impact-resistant

FLOW RATE TESTED TO DIN EN 1253 (with 10/20 mm water over cover plate)

	Required	Dallmer
DN 50	0.8 l/s	0.8/1.0 l/s

ITEM	DN	PART NO.
 drain body DallFlex vertical	DN 50	539076

Can be connected to British standard pipework with adaptor part No. 880727.

Build-in height 45 mm
(without mounting feet 30 mm)

drain body DallFlex vertical

core drill: d: 120 mm

core drill for fire and sound-insulating collar 11:
d: 157 - 177 mm

DALLMER fire and sound-insulating collar – installation kit 11

used with floor drain bodies DallFlex vertical and floor drain bodies CeraFlex vertical.
For F 30/60/90/120 rated floors.

SPECIFICATION

- insertion element
- intumescent material
- built-in hangers
- mounting accessories
- mortar guard
- blanking plate

connects to:

plastic pipework DN 50 with couplings,

cast iron pipework DN 50 with DALLMER HT/SML pipe coupling DN 50/DN 50 (part-no. 880024)

ITEM	DN	PART NO.
fire and sound-insulating collar – installation kit 11	DN 50	515308

fire + sound-insulating collar – installation kit 11

core drill: d: 157 - 177 mm

Drain body CeraFlex

DALLMER drain body CeraFlex

conforming to DIN EN 1253

for installation with shower channels CeraWall, CeraFloor, CeraFrame, Zentrix, CeraNiveau and CeraFrame Liquid. Outlet DN 50 horizontal, can be positioned on three sides without tools, with ball-joint, adjustable 0 – 15 degrees.

SPECIFICATION

- polymer concrete collar with steel mesh reinforcement
- flexible sealing collar for secure bonding of under-tile waterproofing (conforming to DIN 18534)
- accessories for sound insulated installation
- sound absorbing mounting feet for fixing and height adjustment 90 - 240 mm
- removable trap insert, 50 mm water seal (conforming to DIN EN 1253)
- temporary blanking plate

MATERIAL

Polypropylene drain body and outlet, highly impact-resistant

FLOW RATE TESTED TO DIN EN 1253
